

STI Carbide products:

Applications:

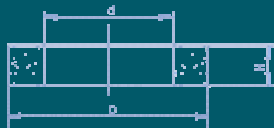

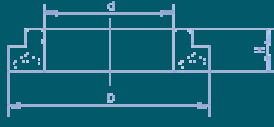

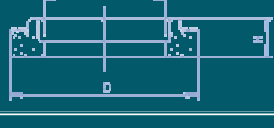

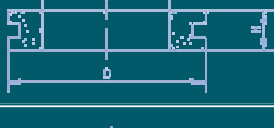

Wear-resistant parts

- Mechanical seal rings
- Wood-working Inserts
- Tobacco Machine Parts
- Carbide dies

Good materials, advanced process, stable mechanical properties.

■ High wear resistance and corrosion resistance

■ Various sealing rings with complicated shape, providing of blanks and finished products

Variety	Any Shape	Type	All Dimensions		
			D	d	H
Normal		PHD × d × H	10 ~ 350	2 ~ 300	3 ~ 50
With outer shoulder		YTD × d × H			
With inner shoulder		NTD × d × H			
With inner-outer shoulder		NYD × d × H			
With groove		CHD × d × H			
Other sealing rings		QTD × d × H			

Other processing: chamfer, end face R or rectangular radial grooves, pin holes for face rotation-prevention, ex-circle axial rotation-prevention R or rectangular grooves, other shapes of end face, finishing.
